

Application No. 10/078,054  
Amendment dated December 19, 2003  
Reply to Office Action of October 2, 2003

**Amendments to the Claims:**

This listing of claims will replace all prior versions and listings of claims in the application:

**Listing of the Claims:**

1. (previously presented) A lip cosmetic comprising:
  - (1) an elongated lipstick core; and
  - (2) an outer layer of lip liner around the periphery of the lipstick core, wherein the lipstick core comprises at least about 50% by weight of the lip cosmetic and wherein the composition of the lip liner has a higher melting point than the composition of the lipstick core.
2. (original) The lip cosmetic of claim 1 wherein the lip cosmetic and the lipstick core are cylindrical throughout at least the major portion of their length.
3. (original) The lip cosmetic of claim 1 wherein the lip liner and lipstick are formulated so that in use the lip liner prevents or minimizes the tendency of the lipstick in the lip cosmetic to feather outside the border of the lips outlined by the lip liner.
4. (original) The lip cosmetic of claims 1, 2 or 3 wherein the lipstick core and lip liner are present in amounts such that the lip cosmetic contains from about 50% to

about 95% by weight of the lipstick core and from about 5% to about 50% by weight of the lip liner.

5. (original) The lip cosmetic of claim 4 wherein the lipstick core and lip liner are present in amounts such that the lip cosmetic contains from about 85% to about 95% by weight of the lipstick core and from about 5% to about 15% by weight of the lip liner.

6. (original) The lip cosmetic of claim 4 wherein the lipstick core and lip liner are present in amounts such that the lip cosmetic contains from about 50% to about 65% by weight of the lipstick core and from about 35% to about 50% by weight of the lip liner.

7. (original) The lip cosmetic of claim 2 wherein the radius of the lip cosmetic is no more than about 1.4 times the radius of the lipstick core.

8. (original) The lip cosmetic of claim 2 wherein the radius of the lip cosmetic is no more than about 1.2 times the radius of the lipstick core.

9. (original) The lip cosmetic of claim 1 wherein the lipstick core has the same color as the outer layer of lip liner.

10. (original) The lip cosmetic of claim 1 wherein the lipstick core has a different color than the outer layer of lip liner.

11. (original) The lip cosmetic of claim 10 wherein the lip liner and lipstick are formulated so that in use the lip liner prevents or minimizes the tendency of the lipstick to feather outside the border of the lips outlined by the lip liner.

12. (original) The lip cosmetic of claim 1 wherein the lipstick core has a lighter color than the outer layer of lip liner.

13. (original) The lip cosmetic of claim 1 wherein the lipstick core has a darker color than the outer layer of lip liner.

14. (original) The lip cosmetic of claim 1 wherein one or both of the lipstick core and lip liner includes one or more additional cosmetic materials, the additional cosmetic materials being selected from the group consisting of fragrances, sunscreens, dermatologic agents, and mixtures thereof.

15. (currently amended) A method for preparing a lip cosmetic comprising an elongated lipstick core and an outer layer of lip liner around the periphery of the elongated lipstick core comprising:

providing a mold having an internal volume generally corresponding to the exterior shape of the lip cosmetic;

inserting into the mold a lipstick core mandrel having a shape generally corresponding to the shape of the lipstick core, leaving a lip liner volume;

introducing liquified lip liner composition into the lip liner volume and solidifying the lip liner composition to form what becomes the coating of lip liner;

removing the lipstick core mandrel from the mold leaving a lipstick core volume; and

introducing liquified lipstick composition into the lipstick core volume and solidifying the lipstick composition;

and wherein the composition of the lip liner has a higher melting point than the composition of the lipstick core and the lip liner is around the periphery of the lipstick core.

16. (original) The method according to claim 15 wherein the mold is designed to provide a beveled shape to the applicator end of the lip cosmetic.

17. (currently amended) A method for preparing a lip cosmetic comprising an elongated lipstick core and an outer layer of lip liner around the periphery of the lipstick core comprising:

providing a first mold having an internal volume generally corresponding to the lipstick core;

introducing liquified lipstick composition into the volume generally corresponding to the lipstick core and solidifying the lipstick composition to form the lipstick core;

providing a second mold having an internal volume generally corresponding to the lip cosmetic;

positioning the lipstick core into the internal volume generally corresponding to the lip cosmetic, leaving a lip liner volume; and

introducing liquified lip liner composition into the lip liner volume and solidifying the lip liner composition to form the coating of lip liner around the lipstick core;

and wherein the composition of the lip liner has a higher melting point than the composition of the lipstick core and the lip liner is around the periphery of the lipstick core.

18. (original) The method according to claim 15 or claim 17 wherein the lipstick core and lip liner are present in amounts such that the lip cosmetic contains from

about 50% to about 95% by weight of the lipstick core and from about 5% to about 50% by weight of the lip liner.

19. (original) The method according to claim 15 or claim 17 wherein the lipstick core and lip liner are present in amounts such that the lip cosmetic contains from about 85% to about 95% by weight of the lipstick core and from about 5% to about 15% by weight of the lip liner.

20. (original) The method according to claim 15 or claim 17 wherein the lipstick core and lip liner are present in amounts such that the lip cosmetic contains from about 50% to about 65% by weight of the lipstick core and from about 35% to about 50% by weight of the lip liner.

21. (original) The method according to claim 17 wherein the first mold and the second mold are designed to provide a beveled shape to the applicator end of the lip cosmetic.

22. (original) A method for applying a cosmetic to the lips comprising the step of applying to the lips the lip cosmetic of claim 1.
